Summary

Enthusiastic MERN stack developer with a Masters's in Computer Applications from Rajasthan Technical University. With expertise in MERN stack development, demonstrated through hands-on project experience. Proficient in JavaScript, React, Node.js, and MongoDB, eager to leverage academic knowledge and project work to contribute effectively as a MERN stack developer in a dynamic team environment.

Skills

- DSA
- HTML
- CSS
- JavaScript
- ReactJS
- Redux
- Express.js
- NodeJS
- REST API
- MongoDB
- Java
- cpp
- C
- Python

Projects

Social-Media Clone (MERN Stack Project) | Personal Project

- Developed a social media clone application using the MERN stack.
- Implemented REST API integration for seamless data exchange.
- Ensured secure access with authentication and authorization using JSON Web Tokens (JWT).
- Utilized Redux for efficient state management.
- Integrated Socket.IO for real-time chat functionality.
- **Technologies Used**: MERN stack (MongoDB, Express.js, React.js, Node.js), Redux, JavaScript, HTML5, CSS3, JSON Web Tokens (JWT), axios, cors, REST API, Socket.io.
- **Git Repository**: [Source Code](#)

ChatGPT Clone (React Project) | Personal Project

- Developed a ChatGPT clone application using ReactJS.
- ReactJS: Utilized for building the user interface and managing the application's frontend logic.
- OpenAI API: Integrated to leverage the power of GPT for generating responses to user queries.
- **Technologies Used**: HTML, CSS, JavaScript, React.js, OpenAI API.
- **Git Repository**: [Source Code](#)
